

“Our Vision for Excellence is to train inspirational, good and outstanding teachers with the potential to be future leaders. This is achieved by offering tailored, bespoke teacher training, specific to the trainees’ needs, delivered in a supportive, nurturing, real life environment.”

- We pride ourselves in offering a personalised programme and journey begins as soon you contact us, whether it is at one of our **Advice about Training to Teaching Evenings** or one of our Saturday **Get into Teaching** events, or just through an informal telephone enquiry. We will guide you from ‘just thinking about teaching’, through application, through the training, and to getting your first job. But we don’t stop there, we are here to give advice about your career progression. If you are still studying at school we can advise you about the correct choice of A levels or your degree choices.
- You will be choosing a primary and secondary provider of Initial Teacher Training, with a proven track record for producing good and outstanding teachers for the schools within our partnership and beyond.
- Our close working partnership covers schools in Bedfordshire, Northamptonshire, Hertfordshire, Cambridgeshire and Milton Keynes.
- We provide you with a choice of training routes to suit your individual needs, including School Direct, the salaried and tuition fee route and SCITT.
- On successful completion of your course of training you will graduate with QTS and a PGCE
- We can provide you with the opportunity to train to teach across a diverse range of partner schools providing you with a breadth and depth to your practical experience.
- For Instructors with appropriate experience and qualifications, currently teaching in schools we can provide the Assessment Only route to help you gain QTS.
- Within the course you choose, you will frequently meet with, and work with, other trainees to share your experiences.
- If you are still unsure about teaching we can advise you about school visits or placements.
